And thereupon the Government shall appoint one or more Commissioners, who may be Government Officers, to examine the said drawings, maps, and plans, and to determine finally, in concert with the agents of the Company, the exact position of the work or of the parts thereof, as well as the boundaries of the land to be taken for the said work, and shall notify such appointment in the Official Gazette, and shall cause such notification to be published in the district where the work is proposed to be undertaken in such manner as shall seem best to the Government.

XX. The Commissioners appointed as aforesaid shall proceed at any time, but not sooner than 30 days after such notification, to settle, in concert with the agents of the Company, the exact position of the work or of the parts thereof, and thereafter with all practicable despatch to examine the boundaries of the land proposed to be taken for the work, and the said Commissioners may call upon the Company to make any variation in their project and in the position of the works or any part of them and in the boundaries of the land proposed to be taken, that may to the said Commissioners seem necessary to secure the safety or convenience of the public, or to prevent any undue interference with private property, or for any other reasonable cause, and any such variation if agreed to by the Company shall thereon be considered to be finally adopted; but if the Company shall not agree, the question in dispute shall be submitted to the Government, and the decision of the Government shall be final, provided that the Company shall not be bound to carry out the proposed work if any variation be insisted upon by the Government to which the Company will not assent.

XXI. The Government shall be authorized to extend the periods allowed for giving any notices or for performing any acts required under the foregoing Sections, as from time to time may seem to it proper.

AS TO THE TAKING LANDS, THE TITLE THEREIN, AND THE PAYMENT THEREFOR.

XXII. When the boundaries of the land required for the work shall have been settled as aforesaid, and the Company shall have caused the said land to be measured and suitable land-plans to be prepared of the same, the Government shall cause a declaration to be made under the signature of a Secretary to the Government, or some Officer duly authorized to certify the orders of the Government, that the land aforesaid

is required for the said work, and such declaration shall be conclusive that the land may be taken under this Act. After making such declaration the Government may proceed to take any such land as though it had been required to be taken at the public expense and for a public purpose, and as though a declaration had been made as required under Act VI of 1857 (*for the acquisition of land for public purposes*).

XXIII The boundaries as determined by the Commissioners, and the plans and measurements aforesaid of the said land when verified and found to be correct or when duly corrected by the Collector or other Officer appointed to proceed under the said Act VI of 1857, shall be held to be the boundaries, plans and measurements required under Section IV of the said Act, so far as the said lands are concerned.

XXIV If at any time land shall be required for any necessary or reasonable extension of or addition to any work under this Act, it shall be lawful for the Government to make all requisite declarations for the purpose of obtaining such land under this Act, after such and only such of the preliminary proceedings and enquiries hereinbefore required as to the Government shall in each case seem sufficient for the protection of the rights of the public and of individuals concerned. Provided that nothing shall be done contrary to the provisions of Section X of this Act, and that all proceedings for the actual taking possession of the land shall be conducted in accordance with the provisions of the said Act VI of 1857.

XXV Land may be taken under this Act for a temporary purpose in like manner as under the said Act VI of 1857.

XXVI All land taken under this Act shall vest absolutely in the Government as though it had been taken for a public purpose under the said Act VI of 1857, and it shall be lawful for the Government to dispose of any land taken under this Act in any manner that it may think fit. The Government alone shall be responsible for the payment of all claims on account of such land to all persons who sever, and the Company shall in no wise be responsible for any such payment otherwise than to the Government and then only as is herein declared and provided and as shall be specially agreed in the conditions aforesaid.

XXVII When all the conditions as aforesaid are applicable to the transfer of the land to the Company shall have been fully complied with, and not till then, the Government shall cause the Company to be placed in possession of such land in accordance with such conditions, and the title of the Government or of the Company to such land shall not be liable to be questioned on account of any informality in any proceeding taken under this Act.

XXVIII All expenses attending the proceedings of the Commissioners to be appointed under Section XIX of this Act, and all expenses

incurred by the Government in taking up the land and required for the Company under the said Act VI of 1857, shall be paid by the said Company, unless otherwise specially agreed, and the Government shall determine the sum due on account of such expenses, and shall be authorized to deduct such amount from any sum lodged as caution money as aforesaid if it be not otherwise paid by the Company, and any sum remaining unpaid both as aforesaid, and on account of land or compensation for which the Company are liable under the said conditions, may on the order of the Government to that effect be levied by distress and sale on the said Company, in the manner provided for distress and sale under Civil process.

XXIX The Company shall further be liable for all damage done in any of its preliminary operations, and shall duly satisfy and pay all claims of this description; and if at the time of taking possession of the land required for the Company it shall appear that any such claim remains unsatisfied, the Collector or other Officer acting under the said Act VI of 1857 in respect of such land shall be authorized to determine all such claims summarily as though they had been claims arising under the said Act, and all payments on account of such claims shall be made good by the Company as under the last preceding Section.

AS TO THE PUBLIC USE OF WORKS

XXX. Every work under this Act shall be available for the use of the public in accordance with and to the extent provided by the conditions aforesaid or any Act at the time being in force but not otherwise; and after the publication of the conditions relating to any such works in the Official Gazette, all Courts may take judicial notice of the same, and it shall be lawful for any person whatsoever to sue the owners of such work for any damage he may incur by reason of any neglect of the said conditions by the said owners in respect of any such public use of such work as though such person had been a party to the said conditions.

XXXI The owners of any work under this Act shall be authorized to levy such tolls in such manner as shall be fixed in accordance with the conditions aforesaid, also to refuse the use of such work and to refuse to perform any service in connection therewith unless such tolls shall be paid in the manner fixed aforesaid, as well as to attach any thing or animal on which such tolls shall be due and to sell the same if the said tolls shall remain unpaid after a reasonable time has been allowed to elapse for the payment of the same. Provided that no such tolls shall be demanded or taken at any place unless proper tables and lists of such tolls be exhibited at such place in the manner fixed aforesaid.

AS TO THE CONSTRUCTION OF THE WORKS AND THE INSPECTION OF THE SAME.

XXXII The Government may appoint Inspectors to inspect any work under this Act, also all things appertaining thereto and to the working of the same; but not books or documents otherwise than as shall be provided in the conditions aforesaid. The owners of such work and all persons authorized by them to use the

same in connection with any public use of the said work, and their servants and agents, shall be bound to afford to such Inspectors all reasonable facility for their inspection, and all such information as may be reasonably required by them.

XXXIII. If it appear to the Government upon the report of any Inspector, that the use of any work under this Act cannot be continued without danger to the public or to the persons employed thereon, or that rules adequate to the protection of the public under the provisions of this Act, have not been framed and put in force, or that the conditions agreed upon under Section XI of this Act have not been carried out, the Government may order that all defects shall be made good within a reasonable specified time; and in default of the owners of such work complying with such order within such time or such further time as the Government shall appoint, the Government shall be empowered to direct that the use of such work shall be stopped and discontinued until the defects aforesaid shall be remedied to the satisfaction of the Government.

XXXIV. The Government may, at any time on the report of an Inspector during the construction of any work under this Act, direct the Company to construct in connection therewith such culverts, bridges, tunnels, drains, or other works as may be considered by the Government to be necessary to continue to the public any roads, or rights of way, or easements, or the use of any water theretofore available, and to make due provision for the irrigation and drainage of the country so as to prevent the same from being impeded or unnecessarily altered by the construction of the said work. If default be made in complying with any directions given under the provisions of this Section, the Government may order the prosecution of the work to be stopped until such directions shall be complied with to the satisfaction of the Government.

XXXV. Nothing in the last preceding Section shall be construed to render the Company liable to construct any work, or to undertake anything at variance with the special conditions of agreement under Section XI of this Act.

XXXVI. The owners of every Railway under this Act being of the gauge of five feet six inches shall be bound, unless specially exempted by the Governor-General in Council, to erect all the fixed structures and to construct all the rolling stock in conformity with the standard dimensions determined in that behalf from time to time by the Governor-General in Council, and it shall be lawful for the Government to order the said owners to make good all defects in such structures or rolling stock and to prohibit their use until such defects shall be made good to the satisfaction of the Government.

XXXVII. The provisions of Act XVIII of 1854 (relating to Railways in India) shall apply to all Railways under this Act; provided that in respect of such Railways the Government shall be authorized to determine from time

to time the extent to which fences shall be constructed under Section XX of the said Act XVIII of 1854, and that the owners of such Railways shall not be liable to maintain fences under the said Section otherwise than as shall be so declared and ordered in each case by the Government.

XXXVIII. In case any doubt shall at any time arise as to the necessity for constructing or altering any work to ensure the safety of the public, or to provide for established public rights of way, or other public rights of any sort in connexion with any work under this Act, the decision of the Government on such subject shall be final, and shall not be liable to be called in question in any Court of Justice.

XXXIX. If the owners of a Railway under this Act shall desire to form a connexion with any existing Railway of the same gauge, the owners of the new line shall be authorized to call on the owners of the old line to effect the junction, and if the owners of the old line shall not proceed to effect the junction within a reasonable time, the Government, on being satisfied that the junction may be made with safety to the public and without injury to the existing Railway, or detriment to the traffic thereon, may authorize the owners of the proposed line to form the junction, and to do all necessary acts in that behalf, and to lay down such additional lines of rails, points and crossings as may be necessary for the purpose, at such time and in such manner as the Government shall direct. Provided that if the junction be effected by the owners of the previously existing Railway, the expense of forming the junction, of supplying all necessary works, and of keeping in repair and renewing the same shall be paid by the owners of the new line.

XL. If any difference shall arise as to the terms on which the traffic of a branch or junction line of Railway under this Act shall pass over or upon any other line with which it shall be connected, or as to the manner and times of conducting the traffic or of regulating the same over the two lines or either of them, or as to any matter touching any line under this Act used in common by two or more Companies, the Government shall be authorized on the application of either or any one of the said Companies, to hear and determine all such differences, and any order given by the Government in such a case shall be final and binding on all parties, provided that no order shall be so given at variance with any condition of any agreement between the Government and any of the said Companies that shall be applicable to the said lines of Railway.

AS TO THE MAKING OF BYE-LAWS.

XLI. It shall be lawful for the owners of any work under this Act to make Bye-Laws and Regulations for the guidance of their servants and agents and of persons employed by them, and for the maintenance of order in the use of such work, and to provide for the safety and convenience of the public or of the persons employed on such work: and all such Bye-Laws and Regulations shall be subject to the approval of the

Act XVIII of 1854 applicable to Railways under this Act.

Proviso.

Governor-General in Council, and when so approved all Courts and Magistrates shall take judicial notice of the same, and the Governor-General in Council shall be authorized to cause any alterations to be made in them as shall to him from time to time seem proper. Provided that such Bye-Laws and Regulations be not repugnant to any Law in force in the British Territories in India, for the time being, and that no penalty shall be attached to the infringement of any such Bye-Law or Regulation exceeding a fine of fifty Rupees.

XLII. The substance of such Bye-laws and Regulations affecting the public shall be published or notified in such places on the said work and in such manner as the Government shall from time to time approve or direct, and no penalty shall be recoverable under such Bye-Laws or Regulations unless the same shall have been published and kept published as aforesaid.

XLIII. No penalty shall be recoverable from any person under any Bye-laws or Regulations prescribed to regulate the conduct of the agents and servants and persons employed by the owners of any such work unless a copy of such Bye-laws or Regulations shall have been previously given to such person, or unless proof be given that the Bye-law or Regulation for the infringement of which a penalty is so sought to be enforced was explained to such person before such infringement occurred.

XLIV. In the case of a Railway under this Act being of the gauge of five feet and six inches, it is further provided that the Bye-laws and Regulations shall, unless the Governor-General in Council shall otherwise permit, conform in every respect to the Regulations for Railway Companies under the said Act XVIII of 1854.

AS TO THE LIEN OF THE GOVERNMENT ON ANY WORK.

XLV. No lands taken or supplied by the Government for any work under this Act; no tree, building, or structure standing on such lands; no machinery nor permanent way fixed to the soil on such lands; nor anything whatsoever on which the Government shall be entitled to re-enter, or of which it shall be entitled to take possession without payment on the determination from any cause of the agreement between the Government and the Company under the conditions aforesaid, shall be liable to be seized or applied in satisfaction of any debts or liabilities of any sort of the Company, nor shall the Company alienate the same or any part thereof in any way not provided for or consonant with such agreement or conditions.

XLVI. If the owners of a work under this Act shall voluntarily determine to wind up their affairs, or shall be so directed by an order of Court, or shall abandon or determine to abandon such work, or shall commit an act of Bankruptcy or Insolvency, it shall be lawful for the Government thereupon to terminate all contracts then existing between it and the Company in respect of such

work, and to re-enter upon and take possession of all things whatsoever to which the Government shall be so entitled under the conditions of such contracts; also of all lands taken at the public expense or supplied to the said Company free of cost, together with all trees, buildings and structures standing on such lands, as well as all machinery and permanent way fixed to the soil on such lands, provided that nothing shall be so taken which shall be expressly excluded from such liability under the conditions aforesaid. But the

Government to surrender to lawful claimant moveable property acquired from the Company otherwise than by purchase in certain cases.

Government shall be bound to surrender to a lawful claimant all moveable property of which it shall at any time obtain possession from the Company otherwise than by purchase, which shall not have been fully paid for by the Company,

or in lieu of such surrender, if the Government shall so determine, to satisfy all just outstanding claims on account of such property; provided that no such surrender shall be obligatory and no such claim shall be entertained in respect of any thing that shall have been delivered to the said Company more than twelve months before the date of such surrender being required of or such claim being made known to the Government.

AS TO MINES NEAR ANY WORK.

XLVII. Whenever land shall be taken under this Act for the construction of any work, the taking thereof shall not be held to convey or include the right to any mine of coal or other minerals lying under such land, except only such part thereof as shall be necessary to be dug or carried away or used in the construction of the works, unless compensation for the same shall have been expressly allowed in the award made in favor of the persons interested in the land.

XLVIII. If the owner, lessee, or occupier of any mine of coal or of any other mineral lying immediately under any work under this Act, or within forty yards therefrom, shall work the same, it shall be competent to the Government, on the application of the Company, to require such person to abandon such working, or so to work the same as not to endanger the said work, and to construct the works necessary to make it safe. Provided that compensation shall be awarded to such owner, lessee, or occupier in the manner provided for in the said Act VI of 1857, for any loss sustained by him from being compelled to abandon, or alter his mode of working the mine, and also for any necessary works constructed by him (when so required as aforesaid) in order to prevent damage to the said work, but all damage or loss to the Company arising from any improper working of such mines shall be at the risk of the owners, lessees, or occupiers of the said mines, and shall be made good by them.

AS TO OFFENCES AND THE RECOVERY OF PENALTIES.

XLIX. Whoever shall obstruct or commit any contempt of the lawful authority of any public servant in the discharge of any function or in the performance of any thing undertaken under this Act, or shall commit mischief by destroying, defacing, or removing any land-mark fixed by the authority of any such public servant

Punishment for certain offences.

shall be punishable under the provisions of the Indian Penal Code.

L. All penalties for offences under the Bye-laws and Regulations aforesaid shall be recoverable in the manner provided for offences punishable by fine only in the said Act XVIII of 1854.

STATEMENT OF OBJECTS AND REASONS

IN the early part of the year the late Mr. Ritchie obtained leave to bring in a Bill to provide for the construction by Companies and private persons of Branch Railways, Iron Tram-roads, common Roads, or Canals, as feeders to public Railways, High-roads, navigable Rivers or Canals. It was Mr. Ritchie's intention to bring in a Bill substantially the same, in so far as the details were concerned, as the Bill introduced, with a similar object, into the late Legislative Council, though with a somewhat wider scope. The Bill introduced into the late Legislative Council was not proceeded with in consequence of the abolition of that Council.

The Bill, framed as intended by Mr. Ritchie, having been considered by the Government in the Public Works Department, it was thought that the scope of the proposed legislation might, with great public benefit, be extended even beyond what was advised by Mr. Ritchie, and that any Bill introduced, instead of being confined in its application to Branch Railways, Iron Tram-roads, common Roads, or Canals, as feeders to other works, might properly embrace many other works of public utility. Section II of the Bill defines the works of public utility to which it is intended that the provisions of the Bill should apply, to be Bridges, Roads, Rail-roads, Tram-roads, Canals for irrigation or navigation, Tanks, Works for the improvement of Rivers or Harbours, Docks, Quays, Jetties, Water-works, Gas-works, Mines, Iron or Copper-works, Drainage-works, or Electric Telegraphs, and also all works subsidiary to such works. The same Section of the Bill further gives power to the Governor-General in Council from time to time by a declaration to be made to that effect, and published in the Official Gazette, to order that any class of works other than those named shall be included among works of public utility within the Act.

It was also considered that the details of the Bill, as proposed by Mr. Ritchie, might be greatly improved, and that they should be made to assimilate more nearly to the laws of the same nature which are in force at home. These considerations have led to an entire remodelling of the Bill.

In framing the Bill it had to be considered whether the Bill should be of general application, that is, whether its provisions should apply to all India, or whether the application of the Bill should be confined to those parts of India for which the Council of the Governor-General alone can legislate. As a general rule, there can be no doubt that the Government of India should not legislate for the local Governments which have Legislative Councils of their own, on any matters in respect of which those Governments are competent to legislate for themselves. The part of the Indian Councils Act of last year, which relates to legislation, was evidently framed on this principle. But when a law is required for the Empire at large, and whether the law is to be the work of a single Legislature or of several distinct Legislatures, the general principles observed in framing it, and the more essential details, must be the same, I venture to think that there must be a great public convenience in having a single law for all India passed by the Government of India which alone is competent to pass a general law, instead of two or more laws passed by different Legislatures acting independently of one another.

The fact that there are, at the present time, two Branch Railway and other Public Works Bills pend-

ing, one before the Council of the Governor of Bombay and the other before the Council of the Lieutenant-Governor of Bengal, the provisions of which differ little, if at all, from the Bill proposed by Mr. Ritchie, and that Mr. Ritchie considered that a Bill such as was proposed by him, was all that was required for the entire country, would seem clearly to shew that the legislation needed at this time is of the general character above described, and that consequently there can be no necessity for separate Acts for the different Presidencies, or for different parts of the same Presidency.

In addition to what I have already mentioned in favor of a general Bill, I may repeat what was stated by Mr. Ritchie in the remarks with which he prefaced his motion for leave to introduce the Bill proposed by him, namely, that as a Railroad for which feeders are to be provided (and the same observation applies to Canals, High-roads, and other public works) may pass through several Districts or different Presidencies, two different Acts might be objectionable.

The 5th November 1862.

M. WYLIE,
Depty. Secy. to the Govt. of India,
Home Department.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 26th November 1862, and was referred to a Select Committee with instructions to make their report thereon in six weeks:—

No. 58 of 1862.

A Bill to amend the law for regulating the Police of the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca.

WHEREAS it is expedient to amend the law for regulating the Police of the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca; It is enacted as follows:—

I. Section III of Act XLVIII of 1860 (to amend Act XIII of 1856, for regulating the Police of the Towns of Calcutta, Madras, and Bombay, and the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca) shall cease to have any effect in any of the said Stations from the time when this Act shall come into operation, provided that nothing in this Section shall be held to revive the operation of Section XV of the said Act XIII of 1856.

II. No person shall be enrolled a member of the Police Force in any of the said Stations, who shall not sign a declaration, in the form provided in the Schedule to this Act, that he will serve as a member of such Force for such period, not exceeding five years, as shall be fixed by the Governor of the said Settlement, and no person who shall have signed such declaration shall be at liberty to resign his Office, or to withdraw himself from the duties thereof, except with the permission of the Governor of the said Settlement, to be granted on a Certificate of ill health from a Medical Officer of Government, or on a special recommendation of the Commissioner of Police. Provided that nothing in this Section shall interfere with the power of the Commissioners of Police, under Section X of the said Act XIII of 1856, to suspend or dismiss any member of the

Police Force whom he shall think remiss or negligent in the discharge of his duty, or otherwise unfit for the same.

III. Every member of the Police Force in any of the said Stations, who shall have signed the declaration hereinbefore mentioned, and who shall desert or withdraw himself from such Police Force, by absanting himself from duty without reasonable excuse for a period exceeding twenty-four hours, or otherwise, shall, on conviction before a Magistrate, forfeit all arrears of pay and allowances that may be due to him at the time of such desertion or withdrawal, and be liable to a fine not exceeding six months' pay and allowances, and on failure of payment thereof to imprisonment, with or without hard labor, for a period not exceeding one month if such fine be not sooner paid; or to imprisonment, with or without hard labor, for a period not exceeding three months; or to both fine and imprisonment.

IV. Whoever in any of the Stations of the Straits Settlement has, or keeps, any Hotel, Tavern, Punch-house, Ale-house, Arrack or Toddy-shop, or place for the sale or consumption of Gunja, Chundoo, or other preparation of Opium, Hemp, or other intoxicating drug, plant, or substance, or any Eating-house, Coffee-house, Boarding-house, Lodging-house, or other place of public resort and entertainment, wherein provisions, liquors or refreshments are sold or consumed (whether the same be kept or retailed therein or procured elsewhere), without a license from the Commissioner of Police of such Station, shall be liable to a fine not exceeding fifty Rupees for every day that such unlicensed house or place of any kind is kept open, or that such unlicensed sale is continued, provided that nothing in this Section shall apply to the sale in reasonable quantities, of any drug, plant, or substance in any Druggist's or Chemist's shop for medicinal purposes only.

V. The Commissioner of Police in each of the said Stations shall, from time to time, grant licenses to the keepers of such houses or places of public resort and entertainment as aforesaid in the said Stations respectively, and upon such conditions, to be inserted in every such license, as he, with the sanction of the local Government, from time to time, shall order, for securing the good behaviour of the keepers of the said houses or places of public resort and entertainment, and the prevention of drunkenness and disorder among the persons frequenting or using the same, and the said licenses may be granted by the said Commissioner for any term not exceeding one year; provided always, that it shall not be lawful for the said Commissioner to grant a license to open, or establish, or keep open, any house of public entertainment in which any provisions, liquors, or refreshments of any kind, or in which any Gunja, Chundoo, or other preparation of Opium, Hemp, or other intoxicating drug, plant, or substance, may be sold or consumed, to any person who has not taken out a license for the retail sale of such articles, if a license be necessary, under the Abkaree or Excise Laws for the

time being in force; and any such license granted by the Commissioner shall become void whenever the license necessary under the Abkaree or Excise Laws shall terminate or be recalled. And every holder of such license may be required by the Commissioner to fix, in a conspicuous part of the house or place specified in the license, a board, on which shall be legibly painted, in the English and Vernacular languages, the name of the holder, and the articles he is licensed to

VI. A breach of the conditions of a license granted under the last preceding Section shall, besides forfeiture of the license, be punishable by a fine not exceeding fifty dollars, and such fine shall be recovered from the person licensed, notwithstanding that such breach may have been owing to the default or carelessness of the servant or other person in charge of the shop or place of sale.

VII. This Act shall be read and taken as part of the said Act XIII of 1856.

STATEMENT OF OBJECTS AND REASONS

THIS Bill is introduced in consequence of a representation from the Governor of the Straits Settlement, who has brought to notice the great inconvenience experienced in that Settlement, owing to there being no law authorizing enlistment in the Police Force for a stated period of service, and from the omission of the Straits Settlement from so much of the Police Act of 1860 for regulating the Police in the Presidency Towns of Calcutta, Madras, and Bombay, and the Straits Settlement as relates to the control over Ale Houses, Coffee Houses, Boarding Houses, Lodging Houses, and the like. The parts of Act XLVIII of 1860 referred to are Sections XI, XII, and XIII. These Sections, as they were originally drawn, were intended to apply to the Straits Settlement. Why the Straits Settlement was afterwards excluded from their operation, I have not been able to discover. There seems no ground for their exclusion, and the Governor of the Straits Settlement appears to have shewn good and sufficient reason for the extension of the Sections, for which the Bill makes provision, to the Stations under his government.

With regard to the other point noticed in the representation from the Governor of the Straits Settlement it may be observed that no such law, as that asked for, exists in the Presidency Towns, or, I believe, at home. But the Governor of the Straits Settlement points out that the circumstances of that Settlement and of the Presidency Towns are very different. In the Presidency Towns the rate of pay offered is found sufficient to induce the natives enlisting in the Force to remain in it, and when any member of the Force takes his discharge, his place is easily supplied. In the Straits Settlement, on the contrary, the greatest difficulty is experienced in maintaining the Police Force at its prescribed strength, and the Commissioners complain very much of the constant changes that are taking place, and which render necessary

their exertions to keep the Police Force in an efficient state. The Governor notices that in the Colony of Hong-Kong it has been found necessary, in framing a law to regulate the Police, to require that every Inspector, subordinate Officer, and Peon, shall enlist for five years, previously to the expiration of which period no one entering the Force is at liberty to resign his office,* or to withdraw himself from the duties thereof, except with the permission of the Governor, granted on a certificate of ill-health from the Colonial Surgeon, or on a special representation from the Captain Superintendent. It is considered that great advantage would result from the extension of similar provisions to the Straits Settlement, and the first two Sections of the Bill have been framed with a view to a modification of the existing law, in so far as it extends to the Straits Settlement, in the direction recommended by the Governor.

(Signed) H. B. HARRINGTON.

The 12th November 1862.

From the Governor of the Straits Settlement, to the Secretary to the Government of India, Home Department, No. 115, dated Singapore, the 21st August 1862.

SIR,—I have the honor to enclose, for submission to His Excellency the Governor-General in Council, copy of a representation, No. 58, dated the 30th ultimo, from the Commissioner of Police at Singapore, on the subject of his want of control over Ale Houses, Coffee Houses Boarding and Lodging Houses &c., as exercised by the Commissioners of Police at the Presidency Towns in India.

2. There can be no doubt that this control is urgently needed in the Straits, more especially at Singapore. The necessity for its being granted was brought prominently to the notice of the Legislative Council in paragraph 3 of my letter, No. 204 of the 13th October 1860, and I certainly have been at a loss to discover the grounds upon which a power it has been considered advisable to vest in the Commissioner of Police at Calcutta, Madras and Bombay, has been withheld from the same authority at Singapore, a large sea port, generally crowded with shipping of all nations, and consequently containing a large seafaring population, for whose benefit it is so essential that proper supervision should be exercised over all houses and places of public resort and entertainment.

3. Another question alluded to in my communication above mentioned was, the expediency of modifying the rules under which men are entertained for service in the Police, and authorizing their being enlisted for a term of years. This may not be deemed a matter of any great importance in the Presidency Towns, where the pay offered is a sufficient inducement for a Native to remain in the Force, and should he take his discharge, his place can be immediately supplied, but it is far different in the Straits Settlement, where there is considerable difficulty in maintaining the Force at its prescribed strength, and Commissioners complain sadly of the constant changes that are taking place, rendering all their exertions to keep the Police in an efficient state perfectly nugatory, at the sister Colony of Hong-Kong it has been found requisite, in framing the Law for the regulation of the Police, to require every Inspector, subordinate Officer, and Peon, on entering the Force, to bind himself to serve for the period of five years, previous to the expiration of which he is precluded from resigning his office, or withdrawing himself from the duties thereof, except under the permission of His Excellency the Governor, accorded on a certificate of ill health from the Colonial Surgeon, or on a special representation from the Captain Superintendent. In the event of any further amendment of the Police Act, the introduction of a Clause to the above effect as regards the Police in the Straits would be a great boon to the Settlement.

I have, &c.,

(Sd) GEORGE CANNAN, Colonel,
Governor.

From the Commissioner of Police, Singapore, to the Secretary to Government, Straits Settlement, Singapore, No. 58, dated Singapore, the 30th July 1862.

SIR,—I HAVE the honor to bring to your notice a nuisance which has existed for years, but which has been represented even so long ago as Governor Butterworth's time; it is Beer Shops, and the great increase of them, over which the Police Authorities have no control, as any person who wishes to open such a shop can do so without a license or permission of any kind. These places are mostly kept by Sailors who have left their ships and served as barmen in some public house, and men who are reported to me as convicts, ticket of leave men from the Australian Colonies.

From the Preamble of Act XLVIII of 1860 it appears evident, that the Legislative Council of India intended that the Police Commissioners of the Straits should be vested with the like power as those of Calcutta Madras, and Bombay, but unfortunately the important words 'and the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca' have been omitted in the 11th and 12th Sections of the Act.—This being remedied, the evil complained of could be dealt with, and only properly conducted houses would be licensed. May I request you to be good enough to bring this to the consideration of His Honor the Governor, and I feel sure you will support my suggestion.

I have, &c.,

LEGISLATIVE DEPARTMENT

THE following Act of the Lieutenant-Governor of Bengal in Council, having received the assent of His Honor on the 21st November 1862, was assented to by His Excellency the Governor-General on the 24th idem, and is hereby promulgated for general information.—

ACT No. IX of 1862.

An Act to amend the law relating to the appointment of Registers of Deeds, and to provide for the establishment of Deputy Register Offices.

WHEREAS it is expedient to amend the law relating to the appointment of Registers of Deeds in the Provinces subject to the Government of Bengal; and whereas the establishment of Deputy Register Offices will be attended with convenience to the public; and whereas instances have occurred of persons exercising the office of Register of Deeds, with regard to the legality of whose appointment to that office doubts have arisen; It is enacted as follows:—

I. Section XV of Regulation XXXVI. 1793, Laws repealed. Act XXX of 1838 with the exception of Section V of that Act, Sections I, II, and III of Act IV of 1815, and Act XI of 1851, are hereby repealed.

II. The Lieutenant-Governor of Bengal may, in each and every District of the Provinces subject to the Government of Bengal, appoint any person whom he may think fit to be a Register of Deeds in

and for such District under the provisions of the Laws and Regulations as to the registration of deeds now in force in those Provinces. Every Register so appointed shall be styled the "District Register" of the District to which he is appointed, and his Office shall be styled the "District Register Office."

III. The Lieutenant-Governor of Bengal may establish subordinate Offices of Registry for such Sub-Divisions of Districts or at such places as shall to him seem proper, and every such subordinate Office shall be styled a "Deputy Register Office" of the District in which it is situated: and the Lieutenant-Governor of Bengal may appoint any person whom he may think fit to the charge of such "Deputy Register Office," and the person so appointed shall be styled a "Deputy Register" of the District to which the Office of which he has charge belongs.

IV. The Lieutenant-Governor of Bengal shall fix the limits of the various Sub-Divisions and places for or at which the Deputy Register Offices are established, and may, from time to time, alter the limits so fixed.

V. Except as in this Act provided, the registration of deeds at any "District Register Office" or "Deputy Register Office" shall be subject to all the Laws and Regulations now in force as to the registration of deeds, in the same way as if the Register Offices to be established under this Act had been expressly mentioned or referred to throughout such Laws and Regulations.

VI. Clauses 2 and 3, Section VI of Regulation XX 1812, shall not be applicable to Deputy Register Offices or Deputy Registers for the registry of deeds under this Act.

VII. In case of the death or absence on leave or otherwise of any District Register or Deputy Register, it shall be lawful for the Zillah Judge or other Officer specially authorised by Government in that behalf, to appoint any person whom he may think fit to take temporary charge of the Office of such District Register or Deputy Register, and to register deeds in the same manner as if such person had been appointed to the Office by the Lieutenant-Governor of Bengal.

VIII. Deeds may be registered in any District Register Office or in any Deputy Register Office established under this Act, whether such Office be or to be not in the District, Sub-Division, or place where the property to which such deeds relate, or any part thereof, is situated.

IX. Whenever a deed is tendered for registration in any Deputy Register Office, it shall be the duty of the Deputy Register of that Office to require the person tendering the deed to furnish and leave with him two copies thereof attested as prescribed in Clause 1, Section II of Regulation XX. 1812. One of such copies shall be forwarded by the Deputy Register to the District Register of the District within which his Office is situate, and the District Register on receiving such copy shall register the same as if it had been presented to him in the first instance by the person registering. All fees required for registration shall be paid, by or on behalf of the person tendering the deed for registration, before the same is registered.

X. When no part, or a portion only, of the property to which a deed, registered in the Office of any District or Deputy Register, relates, is situated within the District in which the deed is registered, it shall further be the duty of the Registering Officer to forward a copy of the deed as registered in his Office, to the District Register Office of every District in which any part of such property is situated. Such copies or copy shall be furnished and attested as prescribed in Clause 1 Section II of Regulation XX. 1812; and every District Register receiving a copy so forwarded shall duly register it, as if it had been presented to him in the first instance by the person registering. For every such copy required for transmission to any other District Register Office as aforesaid, the person registering shall pay the whole fee usually payable on registration.

XI. All fees received by any District Register or Deputy Register of Deeds appointed under this Act, shall be accounted to Government in such manner as the Government may direct, and out of the fees so accounted for, whether received by one Office or by more than one Office, the Government shall pay to the District Registers and Deputy Registers so appointed as aforesaid such salaries as it shall think proper.

XII. So much of Section XIV of Regulation XXXVI. 1793, as provides that from the fees in that Section mentioned the Register shall provide the necessary Native Officers to make the entries and copies directed as well as the required stationery, is hereby repealed as regards all District Registers and Deputy Registers appointed under this Act; and it is hereby provided that the Government may allow such Establishments to the several District Registers and Deputy Registers appointed under this Act as may be necessary for the efficient conduct of the duties of their respective Offices, and the cost of such Establishments shall be paid by Government out of the fees accounted for as directed in the last preceding Section: and all the expenses connected with the said District and Deputy Regis-

for Offices respectively, including the supply and safe custody of Register Books, shall be defrayed by Government out of the said fee fund.

XIII. Every Deputy Register shall, on or before the 31st day of January in each and every year, make over all Register Books for the year ending on the 31st day of the preceding December, and all copies of deeds registered during that year, to the District Register to whom he is subordinate, and such District Register shall deposit and deal with the copies of deeds and the books so made over to him as if they were records of his own Office.

XIV. All registrations of deeds which have, before the passing of this Act, been made by any Officer holding or professing to exercise the office of Register of Deeds in any of the Provinces subject to the Government of Bengal, although he may not have been legally appointed to such Office, and all acts done by such Officer in reference to such registrations, are hereby declared to be and to have always been valid and good in all respects, as if such Officer had been legally appointed at the time of making the registrations or doing the acts.

XV. The Government is hereby empowered to frame Rules for the guidance of all District and Deputy Register Offices, provided that the same shall not be inconsistent with the provisions of this or any other Act or Regulation for the time being in force.

LEGISLATIVE DEPARTMENT.

THE following Report of the Select Committee on the Bill for regulating Public Conveyances in the Town and Suburbs of Calcutta, with the Bill as revised by the Select Committee, is, by order of the President, published for general information:—

W^{as}, the majority of the Select Committee on the Bill for regulating Public Conveyances in the Town and Suburbs of Calcutta, have the honor to submit our Report, annexing a copy of the Bill as revised by us. The Bill, as it now stands, is very different from the Bill as read in Council, for we have found it necessary to make many alterations and additions, and have in many respects assimilated the Bill to the Act for the Regulation of Hackney Carriages in London, most of the provisions of which, with a little modification, appear to be very suitable to the requirements of Calcutta.

In the Bill as read in Council there was a marked distinction between Carriages that were only to be "registered," and those which were required to be both "registered and licensed." The owners of Carriages which were only registered were to be permitted to fix their own rates of fare,

a table of which they were required by the Bill to stick up in their premises. Only those Carriages which were both registered and licensed could be compelled to take a fare according to a scale fixed by Government, and no Carriages needed to be licensed as well as registered except those which stood for hire in streets on the public stands. It appears to us that the owners of the great majority of the Carriages let for hire in this Town would in such case keep their Carriages in their own Stables in order that they might be privileged to charge their own rates of fare, and if they did so the law would be practically perfectly useless. We have deemed it right to do away with the distinction between Carriages registered and licensed, and Carriages registered only, and to make, with certain exceptions which we shall proceed to notice, all Hackney Carriages at all reasonable times accept a fare when required so to do, and charge a uniform rate which we have laid down absolutely in the Bill.

We have divided Hackney Carriages into three classes, and each Carriage will be registered as belonging to one or other of these classes. Carriages of the First Class will be such only as belong to Coach Builders, Hotel-keepers, and Livery Stable-keepers. For Carriages of this class we have thought it undesirable to assign any fixed rate of fare. We think that in their case the matter may well be left to arrangement between the parties. The special reasons which make it necessary to fix the fare for Carriages of an inferior description do not apply with the like force to Carriages of the First Class, which will be very much fewer in number, will be much less frequently used, and will belong to owners whom there can never be any difficulty in finding out.

Carriages of the Second and Third Classes will in fact correspond more nearly with the English Hackney Cabs: and we have accordingly dealt with them as such so far as circumstances seem to admit. When these Carriages ply as Hackney Carriages, strictly so called, they will be allowed to charge only the fares prescribed in the Bill. But the Carriages, of an inferior kind, such as will for the most part compose the Third Class, very frequently ply less as Hackney Carriages than as Stage Carriages or Omnibuses. For a Stage Carriage or Omnibus, plying generally and on no fixed line, it is of course almost an impossibility to fix any equitable rate of fares: we have therefore left the charge to be made in such cases to be fixed by agreement between the employer and employed. While these exceptions are made as to the different classes of Carriage and the fares to be paid for the use of them, the three classes are in almost all other respects subject alike to the general provisions of the Bill.

As to the table of fares which we have prepared, we need only call attention to the fact that it provides rates for time as well as for distance. It will be at the option of the hirer, when he hires the Carriage, to say whether he will pay by time or by distance: but if nothing be said about it when the hiring takes place, the fare will be payable according to time. We think that the rates which we have prescribed are quite high enough to guard the Carriage proprietor from loss by the introduction of fixed rates.

We have made it compulsory on every driver of a Hackney Carriage to take out a license. The license will be a general license to drive Hackney

Carriages, and will not be confined to any particular Carriage. But no Hackney Carriage, to whatever class it may belong, may, under any circumstances (except in cases which cannot be possibly avoided), be driven by one who is not a licensed driver. Every driver will have to wear a badge, and will be subject to punishment for misconduct of any kind. All offences and disputes under or arising out of the provisions of the Bill are to be heard and disposed of by the nearest Magistrate. And as questions as to distance may often be raised, we have provided that in case of disputes as to the fare calculated according to the distance, a book of distances signed by the Registering Officer shall be conclusive evidence of all distances therein stated.

We leave it open to the Government to say who shall be the Registering Officer. The Commissioner of Police is perhaps in a better position than any other Officer for fulfilling all the duties of the post.

Provision is made for the delivering up of expired registry plates and tickets as well as of plates and tickets when they are defaced or obliterated, also for the case of their being stolen, and for the use by unlicensed persons of counterfeit plates or tickets intended to resemble true ones. And we have collected together in one Section all the offences for which drivers are liable to a penalty under the Act, assigning a uniform penalty for such offences.

We have somewhat enlarged the provisions regarding Palankeens, assimilating them generally to the rules as to Hackney Carriages, and laying down fixed rates of fares.

Such is the general nature of the alterations we have made but we think it unnecessary to enter more minutely into their details, as we annex the Bill as amended by us.

XXXII. Any person using a Carriage registered under this Act, who shall wilfully or negligently injure the same, shall be liable on conviction to a fine not exceeding twenty Rupees, and shall also pay to the owner of the Carriage compensation for the injury. The amount of such compensation shall be determined by the convicting Magistrate, and shall be recoverable as a fine to be paid to the owner.

Penalty for wilful injury to Carriage.

In case of any dispute between the hirer and driver of a Carriage registered under this Act, the hirer may require the driver to drive to the nearest Police Station of the Town or Suburbs, where the case shall be entered, together with the substance of the dispute, and the Inspector of Police at such Station shall report the same to the Officer appointed by Government as aforesaid. If any Magistrate be sitting, the hirer may require the driver to drive to the Court of such Magistrate, who shall hear and determine the dispute in a summary way.

XXXIV. When a complaint is made before a Magistrate against the driver of a Carriage registered under this Act for any offence committed by him against the provisions of this Act, such Magistrate may forthwith summon the owner of the Carriage personally to appear, and to produce the driver of such Carriage to answer the complaint. Infantry will be filled, as far as practicable, from Volunteers from among the Cornets and Ensigns on the General Lists of the three Presidencies.

Every Cornet or Ensign therefore, on these Lists, who wishes to volunteer, should state, without delay, whether he is desirous of joining one of the new Regiments of Cavalry or of Infantry as Cornet or Ensign, as the case may be, with the understanding that whether he select the Cavalry or the Infantry, the Regiment and his place in the Regiment will be determined by his relative seniority among the Officers now volunteering, whether they be Cavalry or Infantry Officers.

Each Officer is at liberty to volunteer conditionally on being appointed to a particular Regiment and in a particular place but he will readily understand that such conditions can only be acceded to in the event of their not involving any interference with the claims of his seniors.

Under these circumstances, should a compliance with the conditions mentioned by the Officer so volunteering prove to be impracticable, he will be considered as not having volunteered at all.

Applications submitted under this order should be forwarded to the Adjutant-General's Office at each Presidency, on or before the 1st February next, for transmission to the Government of India.

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1. The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2. The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of the Conditions of Sale.

3. The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M., but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on, until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five Chests.

5. A Promissory Note, for a sum calculated

When the amount bid is less than Rs. 1,500 per chest	Deposit.	according to the scale noted in the margin,
On bids of Rs. 1,200 but less than " 1,600	Rs. 200 per Chest.	shall be taken as a deposit on each lot from the purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the sale, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other Public Securities as aforesaid shall have been delivered in shall be re-sold at such time or times and under such conditions of re-sale
On bids of " 1,600 but less than " 2,000	" 300 "	
On bids of " 2,000 but less than " 2,400	" 400 "	
And so on, " 100 being added to the Deposit for every additional Rs. 400 bid.		

as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes, taken on the day of Sale under the last mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization on such manner as to him shall seem fit.

7. No tender of Money, Bank of Bengal Receipts, or Public Securities on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8. The Opium now advertised for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the Sale Book, or his authorized Agent. The receipt for deposit of Public Securities will be granted only in the name of such purchaser, and the Securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The Officer Superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the Sale, it is hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot, after it has been offered for sale in the usual manner

described, shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for sale.

No. 2.—Report of the examination of such Opium.

16. The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1861-62, the same precautions have been taken as those which have been observed during past years, to have the drug procured and set down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the chests indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen, on application, at the Office of the Junior Secretary to the Board of Revenue, four chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the provision's season will be also shown to the purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the chests offered for sale.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815,

quoted below, the Agents in India of the French Government, or persons duly appointed by them; are entitled to demand, that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1863, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular sale within thirty days from the advertisement of such intended sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisitions for Opium within the time abovementioned,

	Chests.

	39,67	usual manner; and if they
	—	shall make application for a

quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to—

Article 6th.—"With regard to the trade in Opium, it is agreed between the High Contracting Parties that at each of the periodical Sales of that article, there shall be reserved for the French Government and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that, if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore-mentioned. The requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the *Government Gazette*."

Governor-General in Council, and when so approved all Courts and Magistrates shall take judicial notice of the same, and the Governor-General in Council shall be authorized to cause any alterations to be made in them as shall to him from time to time seem proper. XLVIII. If the owner, lessee, or occupier of any mine of coal or of any other mineral lying immediately under any work under this Act, or within forty yards therefrom, shall work the same, it shall be competent to the Government, on the application of the Company, to require such person to abandon such working, or so to work the same as not to endanger the said work, and to construct the works necessary to make it safe. Provided that compensation shall be awarded to such owner, lessee, or occupier in the manner provided for in the said Act VI of 1857, for any loss sustained by him from being compelled to abandon, or alter his mode of working the mine, and also for any necessary works constructed by him (when so required as aforesaid) in order to prevent damage to the said work, but all damage or loss to, the Company arising from any improper working of such mines shall be at the risk of the owners, lessees, or occupiers of the said mines, and shall be made good by them.

shall be punishable under the provisions of the Indian Penal Code.

L. All penalties for offences under the Bye-laws and Regulations aforesaid shall be recoverable in the manner provided for offences punishable by fine only in the said Act XVIII of 1854.

STATEMENT OF OBJECTS AND REASONS.

IN the early part of the year the late Mr. Ritchie obtained leave to bring in a Bill to provide for the construction by Companies and private persons of Branch Railways, Iron Tram-roads, common Roads, or Canals, as feeders to public Railways, High-roads, navigable Rivers or Canals. It was Mr. Ritchie's intention to bring in a Bill substantially the same, in so far as the details were concerned, as the Bill introduced, with a similar object, into the late Legislative Council, though with a somewhat wider scope. The Bill introduced into the late Legislative Council was not proceeded with in consequence of the abolition of that Council.

The Bill, framed as intended by Mr. Ritchie, having been considered by the Government in the Public Works Department, it was thought that the scope of the proposed legislation might, with great public benefit, be extended even beyond what was advised by Mr. Ritchie, and that any Bill introduced, instead of being confined in its application to Branch Railways, Iron Tram-roads, common Roads, or Canals, as feeders to other works, might properly embrace many other works of public utility. Section II of the Bill defines the works of public utility to which it is intended that the provisions of the Bill should apply, to be Bridges, Roads, Railroads, Tram-roads, Canals for irrigation or navigation, Tanks, Works for the improvement of Rivers or Harbours, Docks, Quays, Jetties, Water-works, Gas-works, Mines, Iron or Copper-works, Drainage-works, or Electric Telegraphs, and also all works subsidiary to such works. The same Section of the Bill further gives power to the Governor-General in Council from time to time by a declaration to be made to that effect, and published in the Official Gazette, to order that any class of works other than those named shall be included among works of public utility within the Act.

It was also considered that the details of the Bill, as proposed by Mr. Ritchie, might be greatly improved, and that they should be made to assimilate more nearly to the laws of the same nature which are in force at home. These considerations have led to an entire remodelling of the Bill.

In framing the Bill it had to be considered whether the Bill should be of general application, that is, whether its provisions should apply to all India, or whether the application of the Bill should be confined to those parts of India for which the Council of the Governor-General alone can legislate. As a general rule, there can be no doubt that the Government of India should not legislate for the local Governments which have Legislative Councils of their own, on any matters in respect of which those Governments are competent to legislate for themselves. The part of the Indian Councils Act of last year, which relates to legislation, was evidently framed on this principle. But when a law is required for the Empire at large, and whether the law is to be the work of a single Legislature or of several distinct Legislatures, the general principles observed in framing it, and the more essential details, must be the same. I venture to think that there must be a great public convenience in having a single law for all India passed by the Government of India which alone is competent to pass a general law, instead of two or more laws passed by different Legislatures acting independently of one another.

The fact that there are, at the present time, two Branch Railway and other Public Works Bills pending,

one before the Council of the Governor of Bombay and the other before the Council of the Lieutenant-Governor of Bengal, the provisions of which differ little, if at all, from the Bill proposed by Mr. Ritchie, and that Mr. Ritchie considered that a Bill such as was proposed by him, was all that was required for the entire country, would seem clearly to shew that the legislation needed at this time is of the general character above described, and that consequently there can be no necessity for separate Acts for the different Presidencies, or for different parts of the same Presidency.

In addition to what I have already mentioned in favor of a general Bill, I may repeat what was stated by Mr. Ritchie in the remarks with which he prefaced his motion for leave to introduce the Bill proposed by him, namely, that as a Railroad for which feeders are to be provided (and the same observation applies to Canals, High-roads, and other public works) may pass through several Districts or different Presidencies, two different Acts might be objectionable.

Deputy Secy. to the Govt. of India,
Home Department.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 26th November 1862, and was referred to a Select Committee with instructions to make their report thereon in six weeks:—

No. 58 of 1862.

A Bill to amend the Law for regulating the Police of the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca.

WHEREAS it is expedient to amend the law for regulating the Police of the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca; It is enacted as follows:—

I. Section III of Act XLVIII of 1860 (to amend Act XIII of 1856, for regulating the Police of the Towns of Calcutta, Madras, and Bombay, and the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca) shall cease to have any effect in any of the said Stations from the time when this Act shall come into operation, provided that nothing in this Section shall be held to revive the operation of Section XV of the said Act XIII of 1856.

II. No person shall be enrolled a member of the Police Force in any of the said Stations, who shall not sign a declaration, in the form provided in the Schedule to this Act, that he will serve as a member of such Force for such period, not exceeding five years, as shall be fixed by the Governor of the said Settlement, and no person who shall have signed such declaration shall be at liberty to resign his Office, or to withdraw himself from the duties thereof, except with the permission of the Governor of the said Settlement, to be granted on a Certificate of ill health from a Medical Officer of Government, or on a special recommendation of the Commissioner of Police. Provided that nothing in this Section shall interfere with the power of the Commissioner of Police, under Section X of the said Act XIII of 1856, to suspend or dismiss any member of the

Police Force whom he shall think remiss or negligent in the discharge of his duty, or otherwise unfit for the same.

III. Every member of the Police Force in any of the said Stations, who shall have signed the declaration hereinafter mentioned, and who shall desert or withdraw himself from such Police Force, by absenting himself from duty without reasonable excuse for a period exceeding twenty-four hours, or otherwise, shall, on conviction before a Magistrate, forfeit all arrears of pay and allowances that may be due to him at the time of such desertion or withdrawal, and be liable to a fine not exceeding six months' pay and allowances; and on failure of payment thereof to imprisonment, with or without hard labor, for a period not exceeding one month if such fine be not sooner paid; or to imprisonment, with or without hard labor, for a period not exceeding three months; or to both fine and imprisonment.

IV. Whoever in any of the Stations of the Straits Settlement has, or keeps, any Hotel, Tavern, Punch-house, Ale-house, Arrack or Toddy-shop, or place for the sale or consumption of Gunja, Chundoo, or other preparation of Opium, Hemp, or other intoxicating drug, plant, or substance, or any Eating-house, Coffee-house, Boarding-house, Lodging-house, or other place of public resort and entertainment, wherein provisions, liquors or refreshments are sold or consumed (whether the same be kept or retailed therein or procured elsewhere) without a license from the Commissioner of Police of such Station, shall be liable to a fine not exceeding fifty Rupees for every day that such unlicensed house or place of any kind is kept open, or that such unlicensed sale is continued; provided that nothing in this Section shall apply to the sale, in reasonable quantities, of any drug, plant, or substance in any Druggist's or Chemist's shop for medicinal purposes only.

V. The Commissioner of Police in each of the said Stations shall, from time to time, grant licenses to the keepers of such houses or places of public resort and entertainment as aforesaid in the said Stations respectively, and upon such conditions, to be inserted in every such license, as he, with the sanction of the local Government, from time to time, shall order, for securing the good behaviour of the keepers of the said houses or places of public resort and entertainment, and the prevention of drunkenness and disorder among the persons frequenting or using the same, and the said licenses may be granted by the said Commissioner for any term not exceeding one year; provided always, that it shall not be lawful for the said Commissioner to grant a license to open, or establish, or keep open, any house of public entertainment in which any provisions, liquors, or refreshments of any kind, or in which any Gunja, Chundoo, or other preparation of Opium, Hemp, or other intoxicating drug, plant, or substance, may be sold or consumed, to any person who has not taken out a license for the retail sale of such articles, if a license be necessary, under the Alkaree or Excise Laws for the

time being in force; and any such license granted by the Commissioner shall become void whenever the license necessary under the Alkaree or Excise Laws shall terminate or be recalled. And every holder of such license may be required by the Commissioner to fix, in a conspicuous part of the house or place specified in the license, a board, on which shall be legibly painted, in the English and Vernacular languages, the name of the holder, and the articles he is licensed to deal in. For every license granted under this Section there shall be levied a fee of one Dollar.

VI. A breach of the conditions of a license granted under the last preceding Section shall, besides forfeiture of the license, be punishable by a fine not exceeding fifty dollars, and such fine shall be recovered from the person licensed, notwithstanding that such breach may have been owing to the default or carelessness of the servant or other person in charge of the shop or place of sale.

VII. This Act shall be read and taken as part of the said Act XIII of 1854.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill is introduced in consequence of a representation from the Governor of the Straits Settlement, who has brought to notice the great inconvenience experienced in that Settlement, owing to there being no law authorizing enlistment in the Police Force for a stated period of service, and from the omission of the Straits Settlement from so much of the Police Act of 1800 for regulating the Police in the Presidency Towns of Calcutta, Madras, and Bombay, and the Straits Settlement, as relates to the control over Ale Houses, Coffee Houses, Boarding Houses, Lodging Houses, and the like. The parts of Act XLVIII of 1800 referred to are Sections XI, XII, and XIII. These Sections, as they were originally drawn, were intended to apply to the Straits Settlement. Why the Straits Settlement was afterwards excluded from their operation, I have not been able to discover. There seems no ground for their exclusion, and the Governor of the Straits Settlement appears to have shown good and sufficient reason for the extension of the Sections, for which the Bill makes provision, to the Stations under his government.

With regard to the other point noticed in the representation from the Governor of the Straits Settlement, it may be observed that no such law, as that asked for, exists in the Presidency Towns, or, I believe, at home. But the Governor of the Straits Settlement points out that the circumstances of that Settlement and of the Presidency Towns are very different. In the Presidency Towns the rate of pay offered is found sufficient to induce the natives enlisting in the Force to remain in it, and when any member of the Force takes his discharge, his place is easily supplied. In the Straits Settlement, on the contrary, the greatest difficulty is experienced in maintaining the Police Force at its prescribed strength, and the Commissioners complain very much of the constant changes that are taking place, and which render nugatory

Licenses by Commissioner of Police for keeping Taverns and places of public entertainment.

Stations respectively, and upon such conditions, to be inserted in every such license, as he, with the sanction of the local Government, from time to time, shall order, for securing the good behaviour of the keepers of the said houses or places of public resort and entertainment, and the prevention of drunkenness and disorder among the persons frequenting or using the same, and the said licenses may be granted by the said Commissioner

Licenses to be granted only to persons who have taken out the requisite Alkaree licenses.

for any term not exceeding one year; provided always, that it shall not be lawful for the said Commissioner to grant a license to open, or establish, or keep open, any house of public entertainment in which any provisions, liquors, or refreshments of any kind, or in which any Gunja, Chundoo, or other preparation of Opium, Hemp, or other intoxicating drug, plant, or substance, may be sold or consumed, to any person who has not taken out a license for the retail sale of such articles, if a license be necessary, under the Alkaree or Excise Laws for the

their exertions to keep the Police Force in an efficient state. The Governor notices that in the Colony of Hong-Kong it has been found necessary, in framing a law to regulate the Police, to require that every Inspector, subordinate Officer, and Peon, shall enlist for five years, previously to the expiration of which period no one entering the Force is at liberty to resign his office, or to withdraw himself from the duties thereof, except with the permission of the Governor, granted on a certificate of ill-health from the Colonial Surgeon, or on a special representation from the Captain Superintendent. It is considered that great advantage would result from the extension of similar provisions to the Straits Settlement, and the first two Sections of the Bill have been framed with a view to a modification of the existing law, in so far as it extends to the Straits Settlement, in the direction recommended by the Governor.

The 12th November 1862.

From the Governor of the Straits Settlement, to the Secretary to the Government of India, Home Department, No. 115, dated Singapore, the 21st August 1862.

SIR,—I have the honor to enclose, for submission to His Excellency the Governor-General in Council, copy of a representation, No. 58, dated the 30th ultimo, from the Commissioner of Police at Singapore, on the subject of his want of control over Ale Houses, Coffee Houses, Boarding and Lodging Houses, &c., as exercised by the Commissioners of Police at the Presidency Towns in India.

2. There can be no doubt that this control is urgently needed in the Straits, more especially at Singapore. The necessity for its being granted was brought prominently to the notice of the Legislative Council in paragraph 3 of my letter, No. 204 of the 13th October 1860, and I certainly have been at a loss to discover the grounds upon which a power it has been considered advisable to vest in the Commissioner of Police at Calcutta, Madras, and Bombay, has been withheld from the same authority at Singapore, a large sea port, generally crowded with shipping of all nations, and consequently containing a large seafaring population, for whose benefit it is so essential that proper supervision should be exercised over all houses and places of public resort and entertainment.

3. Another question alluded to in my communication above mentioned was, the expediency of modifying the rules under which men are entertained for service in the Police, and authorizing their being enlisted for a term of years. This may not be deemed a matter of any great importance in the Presidency Towns, where the pay offered is a sufficient inducement for a Native to remain in the Force, and should he take his discharge, his place can be immediately supplied, but it is far different in the Straits Settlement, where there is considerable difficulty in maintaining the Force at its prescribed strength, and Commissioners complain sadly of the constant changes that are taking place, rendering all their exertions to keep the Police in an efficient state perfectly nugatory; at the sister Colony of Hong-Kong it has been found requisite, in framing the Law for the regulation of the Police, to require every Inspector, subordinate Officer, and Peon, on entering the Force, to bind himself to serve for the period of five years, previous to the expiration of which he is precluded from resigning his office, or withdrawing himself from the duties thereof, except under the permission of His Excellency the Governor, accorded on a certificate of ill health from the Colonial Surgeon, or on a special representation from the Captain Superintendent. In the event of any further amendment of the Police Act, the introduction of a Clause to the above effect as regards the Police in the Straits would be a great boon to the Settlement.

From the Commissioner of Police, Singapore, to the Secretary to Government, Straits Settlement, Singapore, No. 58, dated Singapore, the 30th July 1862.

SIR,—I HAVE the honor to bring to your notice a nuisance, which has existed for years, but which has been represented even so long ago as Governor Butterworth's time; it is Beer Shops, and the great increase of them, over which the Police Authorities have no control, as any person who wishes to open such a shop can do so without a license or permission of any kind. These places are mostly kept by Sailors who have left their ships and served as barmen in some public house, and men who are reported to me as convicts, ticket of leave men from the Australian Colonies.

From the Preamble of Act XLVIII of 1860 it appears evident, that the Legislative Council of India intended that the Police Commissioners of the Straits should be vested with the like power as those of Calcutta, Madras, and Bombay, but unfortunately the important words "*and the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca*" have been omitted in the 11th and 12th Sections of the Act—This being remedied, the evil complained of could be dealt with, and only properly conducted houses would be licensed. May I request you to be good enough to bring this to the consideration of His Honor the Governor, and I feel sure you will support my suggestion.

LEGISLATIVE DEPARTMENT.

THE following Report of the Select Committee on the Bill for regulating Public Conveyances in the Town and Suburbs of Calcutta, with the Bill as revised by the Select Committee, is, by order of the President, published for general information:—

WE, the majority of the Select Committee on the bill for regulating Public Conveyances in the Town and Suburbs of Calcutta, have the honor to submit our Report, annexing a copy of the Bill as revised by us. The Bill, as it now stands, is very different from the Bill as read in Council, for we have found it necessary to make many alterations and additions, and have in many respects assimilated the Bill to the Act for the Regulation of Hackney Carriages in London, most of the provisions of which, with a little modification, appear to be very suitable to the requirements of Calcutta.

In the Bill as read in Council there was a marked distinction between Carriages that were only to be "registered," and those which were required to be both "registered and licensed." The owners of Carriages which were only registered were to be permitted to fix their own rates of fare,

a table of which they were required by the Bill to stick up in their premises. Only those Carriages which were both registered and licensed could be compelled to take a fare according to a scale fixed by Government, and no Carriages needed to be licensed as well as registered except those which stood for hire in streets on the public stands. It appears to us that the owners of the great majority of the Carriages let for hire in this Town would in such case keep their Carriages in their own Stables in order that they might be privileged to charge their own rates of fare, and if they did so the law would be practically perfectly useless. We have deemed it right to do away with the distinction between Carriages registered and licensed, and Carriages registered only, and to make, with certain exceptions which we shall proceed to notice, all Hackney Carriages at all reasonable times accept a fare when required so to do, and charge a uniform rate which we have laid down absolutely in the Bill.

We have divided Hackney Carriages into three classes, and each Carriage will be registered as belonging to one or other of these classes. Carriages of the First Class will be such only as belong to Coach Builders, Hotel-keepers, and Livery Stable-keepers. For Carriages of this class we have thought it undesirable to assign any fixed rate of fare. We think that in their case the matter may well be left to arrangement between the parties. The special reasons which make it necessary to fix the fare for Carriages of an inferior description do not apply with the like force to Carriages of the First Class, which will be very much fewer in number, will be much less frequently used, and will belong to owners whom there can never be any difficulty in finding out.

Carriages of the Second and Third Classes will in fact correspond more nearly with the English Hackney Cabs: and we have accordingly dealt with them as such so far as circumstances seem to admit. When these Carriages ply as Hackney Carriages, strictly so called, they will be allowed to charge only the fares prescribed in the Bill. But the Carriages, of an inferior kind, such as will for the most part compose the Third Class, very frequently ply less as Hackney Carriages than as Stage Carriages or Omnibuses. For a Stage Carriage or Omnibus, plying generally and on no fixed line, it is of course almost an impossibility to fix any equitable rate of fares: we have therefore left the charge to be made in such cases to be fixed by agreement between the employer and employed. While these exceptions are made as to the different classes of Carriage and the fares to be paid for the use of them, the three classes are in almost all other respects subject alike to the general provisions of the Bill.

As to the table of fares which we have prepared, we need only call attention to the fact that it provides rates for time as well as for distance. It will be at the option of the hirer, when he hires the Carriage, to say whether he will pay by time or by distance: but if nothing be said about it when the hiring takes place, the fare will be payable according to time. We think that the rates which we have prescribed are quite high enough to guard the Carriage proprietor from loss by the introduction of fixed rates.

We have made it compulsory on every driver of a Hackney Carriage to take out a license. The license will be a general license to drive Hackney

Carriages, and will not be confined to any particular Carriage. But no Hackney Carriage, of whatever class it may belong, may, under any circumstances (except in cases which cannot be possibly avoided), be driven by one who is not a licensed driver. Every driver will have to wear a badge, and will be subject to punishment for misconduct of any kind. All offences and disputes under or arising out of the provisions of the Bill are to be heard and disposed of by the nearest Magistrate. And as questions as to distance may often be raised, we have provided that in case of disputes as to the fare calculated according to the distance, a book of distances signed by the Registering Officer shall be conclusive evidence of all distances therein stated.

We leave it open to the Government to say who shall be the Registering Officer. The Commissioner of Police is perhaps in a better position than any other Officer for fulfilling all the duties of the post.

Provision is made for the delivering up of expired registry plates and tickets as well as of plates and tickets when they are defaced or obliterated: also for the case of their being stolen, and for the use by unlicensed persons of counterfeit plates or tickets intended to resemble true ones. And we have collected together in one Section all the offences for which drivers are liable to a penalty under the Act, assigning a uniform penalty for such offences.

We have somewhat enlarged the provisions regarding Palankeens, assimilating them generally to the rules as to Hackney Carriages, and laying down fixed rates of fares.

Such is the general nature of the alterations we have made: but we think it unnecessary to enter more minutely into their details, as we annex the Bill as amended by us.

AMENDED BILL.

A Bill for regulating Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta.

WHEREAS it is expedient to regulate Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta; It is enacted as follows:—

I. Clause 3 Section XXIII of Act XXI of 1857 (to make better provision for the order and good government of the Suburbs of Calcutta and the Station of Howrah), and Clauses 8 and 9 Section XIX of Act XLVIII of 1860 (for regulating the Police of the Towns of Calcutta, Madras, and Bombay), shall be of no effect in the Town and Suburbs of Calcutta as regards the drivers of Hackney Carriages under this Act.

II. From and after the first day of March next every Hackney Carriage, within the Town and Suburbs of Calcutta, shall be annually registered and licensed by a Registering Officer who shall be appointed for the purpose by the Government, and who shall keep a Register in which he shall on registration enter

every Hackney Carriage under either the First, the Second, or the Third Class.

III. No Carriages shall be registered under the First Class except such as belong to Coach Builders, Hotel Keepers, or Livery Stable Keepers.

IV. The owner of any Carriage who is desirous of registering it as a Hackney Carriage must apply to the Registering Officer stating the Class in which he desires that the Carriage may be registered; and he shall submit the Carriage for the inspection of the Registering Officer at such convenient time and place as the said Officer shall appoint. The Registering Officer shall, on examination of the Carriage, decide whether the Carriage is fit to be registered in the Class applied for, and shall accordingly either register it in that Class, or refuse to grant the application.

Application may be granted or refused.

V. The following particulars shall be entered in the Register:—

1st.—The Class and number assigned to the Carriage in the Register.

2nd.—The name and residence of the owner of the Carriage.

3rd.—The number of horses to be employed in drawing such Carriage.

4th.—The number of persons the Carriage is licensed to carry.

VI. The registration shall take place annually

Period of Registry: upon such day in each year as the Registering Officer shall appoint: but any person wishing within the year to use as a Hackney Carriage, a Carriage not so in use on the last preceding day of annual registration, may have such Carriage registered on application to the Officer aforesaid. When any registered Carriage is transferred within the year, it shall be registered anew in the name of the person to whom it has been transferred. The person in whose name any Carriage is registered under this Act for the time being, shall be deemed the owner of such Carriage for the purposes of this Act.

VII. A fee of two Rupees shall be paid for

being registered under the Second or Third Class, the Registering Officer shall provide for such Carriage a plate bearing the Class and the number of such Carriage in the Register and the number of persons it is licensed to carry, and shall cause such plate to be affixed in such conspicuous part outside of such Carriage as shall to the said Registering Officer seem proper.

VIII. The owner of any Carriage registered

either under the Second or under the Third Class, who shall allow such Carriage to be let or used for hire without having a proper plate duly affixed to such Carriage as required by the preceding Section, shall be liable to a penalty not exceeding fifty Rupees.

IX. Whoever keeps or is the proprietor of any Carriage required by this Act to be registered and shall omit to have the same so registered,

shall be liable to a fine not exceeding one hundred Rupees. Any Police Officer may seize and remove to a Police Station such Carriage together with the Horse drawing the same. If the Carriage, so seized, be not claimed, and if any fine imposed be not paid within ten days, such Carriage, together with the Horse seized with it, may be sold by auction, and the proceeds applied to the payment of the fine and all costs and charges incurred on account of the detention and sale, and the surplus (if any), if not claimed by the owner within a further period of twenty days, shall be forfeited to the Government.

X. The Registering Officer may cancel the registration of any Carriage under this Act whenever it shall appear to him that such Carriage, or any Horse or Harness used with such Carriage, is unfit for public use, due regard being had to the class in which such Carriage may have been registered.

XI. As often as any registered owner of a Carriage registered under this Act shall change his residence, he shall give notice thereof in writing signed by him to the said Registering Officer specifying in such notice his new residence. Every registered owner who shall change his residence and shall neglect for one week to give notice of such change, shall be liable to a penalty not exceeding twenty Rupees.

XII. Upon the expiration of the period for which any Carriage may have been registered under this Act, the owner thereof shall cause the plate of such Carriage, affixed under Section VII of this Act, to be delivered to the said Registering Officer; and any person who, after the expiration of the period aforesaid, shall wilfully neglect for three days to deliver the plate to the said Officer, and every person who shall use or detain any plate affixed in respect of a registration which is no longer in force, shall, for every such offence, be liable to a penalty not exceeding one hundred Rupees. Every person who shall for the purpose of deception use or have any plate resembling or intended to resemble any plate affixed under this Act shall, for every such offence, be liable to a penalty not exceeding two hundred Rupees. It shall be lawful for the Registering Officer, or for any person employed by him for that purpose, to prosecute any person so neglecting to deliver up a plate, at any time within twelve calendar months after the expiration of the registration in respect of which such plate was affixed; and it shall be lawful for any Police Officer, or any person employed for that purpose by the Registering Officer, to seize and take away any such plate or any plate used for the purpose of deception as aforesaid, wheresoever the same may be found, and to deliver the same to the Registering Officer.

XIII. Whenever the writing on any plate shall become obliterated or defaced, so that the same shall not be distinctly legible, and also whenever any plate shall be proved to the satisfaction of the Registering Officer to have been lost or mislaid, the owner of the Carriage in which such plate was affixed shall deliver such plate (if he shall have the same in his possession) to the Registering Officer, and shall be entitled to have a new

Owner entitled to have new plate, on loss or obliteration of former one.

plate affixed upon payment of such sum of money, not exceeding two Rupees, as the Registering Officer shall from time to time appoint. Provided that if any

plate which shall have been proved as aforesaid to have been lost or mislaid shall afterwards be found, the same shall forthwith be delivered to the Registering Officer; and every person into whose possession any such plate as last aforesaid shall be or come, and who shall refuse or neglect for three days to deliver the same to the said Registering Officer, and also every registered owner who shall use or permit to be used any plate after the writing thereon shall have become obliterated, defaced, or obscured, so that the same shall not be distinctly legible, shall, for every such offence, be liable to a penalty not exceeding fifty Rupees.

XIV. It shall be lawful for the Registering Officer to grant a license to Drivers of Hackney Carriages to be act as driver of Hackney Carriages to any person who shall apply for the same, and to whom it may seem proper to the said Officer to grant it: Provided that no person shall be so licensed who is under fourteen years of age. In every such license shall be specified the number of the license and the name and place of abode and age of the person to whom such license is granted. Every license shall bear date on the day on which the same shall be granted, and shall continue in force for one year from the date thereof unless the same shall be sooner revoked.

XV. For every license to act as driver granted under this Act a fee of eight annas shall be paid: and the Registering Officer shall, at the time of granting any license, deliver to the driver to whom the same may be granted, a metal ticket upon which shall be marked or engraved his employment and a number corresponding with the number which shall be inserted in the license. The driver to whom such ticket is delivered shall at all times, while acting as driver of a Hackney Carriage or while attending before any Magistrate, carry such ticket exposed to view.

XVI. It shall not be lawful for any person to act as driver of a Hackney Carriage, whether such person shall or shall not be the proprietor of such Carriage, unless such person shall have been licensed under this Act, and the license granted to him shall continue in force. Every owner who shall knowingly suffer any person, not duly licensed under this Act, to act as driver of any Hackney Carriage of which he shall be the owner, shall be liable to a penalty not exceeding one hundred Rupees for every such offence. Provided always that nothing in this Act contained shall subject to penalty any proprietor who shall himself act, or who shall employ any unlicensed person to act, as such driver as aforesaid for any time not exceeding twenty-four hours, or any unlicensed person who shall be so employed for the said time, upon proof being adduced by the proprietor, to the satisfaction of the Magistrate before whom such proprietor or driver shall be required to attend to answer for such offences respectively, that such employment was occasioned by unavoidable necessity. Provided also that every proprietor who shall so employ such

unlicensed driver, and every such unlicensed driver, shall be subject to all the powers, provisions, penalties, and proceedings of and under this Act for any act done or omitted to be done by such driver during such employment, in like manner as if such driver had been duly licensed.

XVII. The particulars of every license which shall be granted as aforesaid shall be entered in books to be kept for that purpose at the Office of the said Registering Officer; and every person applying at all reasonable times shall be furnished with a certified copy of the particulars respecting any licensed person on payment of a fee of two annas for each copy.

XVIII. Upon the expiration of any driver's license granted under this Act, the person to whom such license shall have been granted shall deliver such license and the ticket relating thereto to the said Registering Officer; and every such person who, after the expiration of such license, shall wilfully neglect for three days to deliver the same to the said Officer, and also every person who shall use or wear or detain any ticket without having a license in force relating to such ticket, shall for every such offence be liable to a penalty not exceeding fifty Rupees. Every person who shall for the purpose of deception use or wear or have any ticket resembling or intended to resemble any ticket granted under the authority of this Act, shall for every such offence be liable to a penalty not exceeding one hundred Rupees. It shall be lawful for the Registering Officer, or for any person employed by him for that purpose, to prosecute any person so neglecting to deliver up his license or ticket at any period within twelve calendar months after the expiration of the license: and it shall be lawful for any Police Officer, or any person employed for that purpose by the Registering Officer, to seize and take away any such license and any such ticket, or any ticket used for the purpose of deception as aforesaid, wheresoever the same may be found, and to deliver the same to the Registering Officer.

XIX. Whenever the writing on any ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also whenever any ticket shall be proved to the satisfaction of the Registering Officer to have been lost or mislaid, the person to whom the license relating to any such ticket shall have been granted shall deliver such ticket (if he shall have the same in his possession), and shall produce such license to the Registering Officer, and such person shall then be entitled to have a new ticket delivered to him, upon payment of such sum of money not exceeding one Rupee as the Registering Officer shall from time to time appoint: Provided always, that if any ticket which shall have been proved as aforesaid to have been lost or mislaid, shall afterwards be found, the same shall forthwith be delivered to the Registering Officer; and every person in or into whose possession any such ticket as last aforesaid shall be or come, who shall refuse or neglect for three days to deliver the same to the said Registering Officer, and also every person licensed under the authority of this Act who

shall use or wear the ticket granted to him after the writing thereon shall be obliterated, defaced, or obscured, so that the same shall not be distinctly legible, shall for every such offence be liable to a penalty not exceeding twenty Rupees.

XX. The owner or driver of every Hackney Carriage registered for the time being under the Second or Third Class shall be entitled to demand and take for the hire of such Carriage the fares set forth in the Schedule (A) to this Act annexed, and no higher fares: Provided

Proviso. always that, when the owner or driver of any such Hackney Carriage, to be paid a fare calculated according to the distance, shall be required by the hirer thereof to stop such Carriage for fifteen minutes or for any longer time, it shall be lawful for the owner or driver to demand and receive from the hirer so requiring him to stop, a further sum (above the fare to which he shall be entitled, calculated according to the distance) of one-fourth of the rate for one hour, for every fifteen minutes that he shall have been so stopped: and no owner or driver shall demand or receive over and above the said fare any sum for back fare for the return of the Carriage from the place at which it was discharged.

XXI. The owner of every Hackney Carriage of the Second or Third Class shall put up and at all times keep distinctly printed, painted, or marked, in the English, Oordoo, and Bengalee languages, in such manner and in such position as shall be directed by the Registering Officer, on the inside of such Carriage, the amount of fare according to distance and time which may legally be demanded and taken from the hirer of such Carriage as a Hackney Carriage.

XXII. In the case of disputes as to the fare to be calculated according to the distance, any table or book signed by the Registering Officer shall, on proof of such signature, be taken to be conclusive evidence of all the distances therein stated to have been ascertained by the said Officer.

XXIII. It shall be lawful for any Hackney Carriage of the Second or of the Third Class to ply for hire as a Stage Carriage. The owner or driver of a Carriage so plying for hire or hired as a Stage Carriage shall not be subject to the provisions of Section XX of this Act, but shall be entitled to demand and take for the hire of such Carriage such fares as shall be agreed upon between him and the several hirers respectively. All the other provisions of this Act shall be applicable to the case of a Hackney Carriage plying as a Stage Carriage, so far as the same shall be applicable in each particular instance.

XXIV. The Registering Officer shall, from time to time, appoint one or more Stands in the Town and Suburbs of Calcutta for Carriages registered under this Act, and may also assign for the use of such Carriages, as public Stands, any Coach-houses, or Stables, or sheds, or other suitable places.

XXV. Any owner or person in charge of any Hackney Carriage registered under this Act, who shall without sufficient reason refuse to let such Carriage for hire at the fares specified for the hire of the same under this Act, shall for each offence be liable on conviction to a fine not exceeding fifty Rupees.

XXVI. The driver of every Carriage of the Second or Third Class registered under this Act shall (unless he have a reasonable excuse to be allowed by the Magistrate before whom the matter shall be brought in question) drive such Carriage to any place to which he shall be required by the hirer thereof to drive the same, not exceeding six miles from the place where the same shall have been hired. No. 396.

HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—I FORWARD herewith copy of a Royal Warrant dated 21st June last, in the Regulations attached to which it is provided that promotions shall be made in Regiments of the Line in all cases of a Regimental Major being appointed to the Staff.

2. Having communicated with His Royal Highness the General Commanding-in-Chief, and the Secretary of State for War on the subject of the application of the Warrant to Line Regiments serving in India, with reference to the arrangement which was made known to you in my Despatch No. 439 of the 15th November 1861, paragraph 2, I have been informed that His Royal Highness the General Commanding-in-Chief has caused a communication to be addressed to the Commander-in-Chief in India to the effect that no Field Officer of a Regiment serving in India need be seconded on appointment to a staff situation from a Regiment which has more than three Field Officers on its Establishment.

3. I have the satisfaction of informing you that the 2nd paragraph of the Warrant now forwarded which provides for the promotion to the Brevet rank of Lieutenant-Colonel of substantive Majors after the completion of their service on

the Staff, will apply to Officers of Her Majesty's Indian Forces other than those of the Staff Corps.

CIRCULAR No. 766.

VICTORIA R.

WHEREAS it has been represented to Us that it is expedient to improve the position of Regimental Majors holding Staff Appointments in Our Army, and of Captains

and Subalterns of the Cavalry and Infantry employed at the Royal Military College, Sandhurst: It is Our will and pleasure that, from the date of this Our Royal Warrant, Officers of the Regimental Rank of Major serving on Full Pay, who may be appointed to the Staff of Our Army as Assistant Adjutant-Generals or Assistant Quarter-Master-Generals, and Captains and Subalterns of the Cavalry and Infantry serving on Full Pay, who may obtain employment as Professors and Masters, or as Captains of Companies of Gentlemen Cadets, or on the Staff at the Royal Military College, Sandhurst, shall, under the Regulations hereunto annexed, be continued on the strength of their Regiments as Supernumerary Officers, and retain their position and claim to promotion therein, the Majors on the Staff receiving as Regimental pay an amount equal to the half-pay of their rank, in addition to Staff pay, and the Officers employed at the Royal Military College a fixed rate of College pay in lieu of Regimental pay.

It is also Our will and pleasure that Officers of the substantive rank of Major, who have completed their term of service in the Staff Appointments of Assistant Adjutant-General, Assistant Quarter-Master General, Military Secretary, and Assistant Military Secretary, and have performed the duties thereof to the satisfaction of the General Commanding-in-Chief of Our Army and of Our Secretary of State for War, shall, on removal from the Staff, be promoted by Brevet to the rank of Lieutenant-Colonel.

It having also been represented to Us that it is expedient to revise the system under which Artillery and Engineer Officers are at present employed in Appointments on the Staff corresponding with those hereinbefore mentioned, as well as in those of Deputy Adjutant-General, Deputy Quarter-Master General and Colonel on the Staff: It is Our further will and pleasure that Regimental Colonels and Lieutenant-Colonels of Artillery and Engineers, who may hereafter be nominated to such appointments, shall be placed on the same footing in respect to pay as Officers of Cavalry and Infantry, and that such Officers, as well as Colonels of Artillery commanding certain Districts or Divisions with the rank of Colonel on the Staff, and Captains and Subalterns of the Royal Artillery and Royal Engineers employed at the Royal Military College and Royal Military Academy, shall be governed by the Regulations hereunto annexed.

Given at Our Court at St. James's, this Twenty-first day of June One thousand eight hundred and sixty-two, in the Twenty-sixth year of Our reign.

By Her Majesty's Command,
G. C. Lewis.

REGULATIONS REFERRED TO IN THE PRECEDING
WARRANT.

1. On the appointment of a Regimental Major to the Staff, under the provisions of the annexed Royal Warrant, the step will go in the Regiment without purchase; the Cornetcy or Ensigncy vacated by this promotion being filled by purchase, for the benefit of the Reserve Fund.

2. On removal of the Major from the Staff on completion of the regulated period of Staff service, *viz.*, five years, or on the resignation of his appointment on grounds satisfactory to the General Commanding-in-Chief and Secretary of State for War, he will continue as a Supernumerary Officer, to receive as Regimental pay an amount equal to the half-pay of his rank (even though he may then be the senior Major of the Regiment), till a vacancy shall occur into which he can fall.

3. If, however, a vacancy shall happen by the sale of the Lieutenant-Colonelcy, and the Supernumerary Major shall purchase, the existence of the Supernumerary majority will be put an end to by payment from the Reserve Fund of the difference between the amount to be paid by the Major so promoted, and the value of the Lieutenant-Colonelcy.

4. If the Major on the Staff shall die while so employed, no promotion will take place, as the Regiment will already have had the benefit of promotion in the vacancy occasioned by his appointment to the Staff, but any other death vacancy occurring among the Field Officers will be filled, as usual, by promotion without purchase, unless there be a Supernumerary Major whose period of service on the Staff has expired.

5. If the Major, while employed on the Staff, shall succeed to the Lieutenant-Colonelcy of the Regiment, whether by purchase or otherwise, he will be required to relinquish his Staff appointment, and join his Regiment.

6. If the Major, while employed on the Staff, shall hold the rank of Brevet Lieutenant-Colonel, he shall, on attaining the rank of Regimental Lieutenant-Colonel, reckon his Staff service as qualifying service for the rank of Colonel under the five years' rule, as provided in Clause 9 of the Warrant of the 14th October 1858 for Majors and Brevet Lieutenant-Colonels falling into the temporary command of Regiments.

7. If the Major shall resign his Staff appointment on grounds not satisfactory to the General Commanding-in-Chief and Secretary of State for War, or be displaced for misconduct or incapacity, he will cease to be entitled to the benefit of this Regulation, and be placed upon the Half-pay List.

8. Vacancies occasioned by the appointment of Captains and Lieutenants to the Royal Military College, Sandhurst, (comprising the Staff College and Cadet's College), under the provisions of the Warrant, will be filled up in the Regiment, without purchase; the Cornetcy or Ensigncy vacated by promotion, or by appointment to the Royal Military College, being filled by purchase, for the benefit of the Reserve Fund.

9. If a Captain should be promoted to the rank of Major, or a Lieutenant to the rank of Captain, or a Cornet or Ensign to the rank of Lieutenant, by purchase, while at the Royal Military College, Sandhurst, the difference between the sum paid by him, and the full value of the superior Commission will be made up from the Reserve Fund, thereby putting an end to the Supernumerary Commission vacated by him;

but a Captain, on attaining the rank of Major, whether by purchase or otherwise, will be required to join his Regiment.

10. On promotion to higher Regimental rank of a Supernumerary Cornet, Ensign, or Lieutenant, whether by purchase or otherwise, he will become a Supernumerary in his new grade, and will carry up with him the Officer next for promotion.

11. The principle in Clauses 2, 4, and 7 of these Regulations, applicable to Majors on the Staff, shall govern the appointments at the Royal Military College, Sandhurst, whatever may be the Regimental rank of the Officer.

12. Regimental Colonels and Lieutenant-Colonels of Artillery and Engineers, employed as Colonels on the Staff, and in other situations on the General Staff referred to in the Warrant, will remain on the Establishment of their Brigades or Corps, but will, in accordance with the practice in other branches of the Service, only be allowed a sum equal to the half-pay of their Regimental rank in addition to Staff pay.

13. Regimental Colonels of Artillery commanding certain Districts or Divisions, with the rank of Colonel on the Staff, will remain on the Establishment of their Brigades receiving such a reduced rate of Staff pay, as, with Regimental full pay, will be equal in the aggregate to the established rate of Regimental half-pay and the full rate of Staff pay.

14. Lieutenant-Colonels of Artillery and Engineers holding the appointment of Deputy Adjutant-General or Deputy Quarter-Master General, may retain their Staff appointments when promoted to the Regimental rank of Colonel, should such promotion happen during the period prescribed for holding their Staff appointments.

15. Lieutenant-Colonels of Artillery and Engineers filling the appointments of Assistant Adjutant-General or Assistant Quarter-Master General, will be required to relinquish their Staff appointment on promotion to the rank of Regimental Colonel, should such promotion take place during their term of Staff service.

16. Captains and Subalterns of the Royal Artillery and Royal Engineers employed as Professors and Masters at the Royal Military College, Sandhurst (comprising the Staff College and Cadet's College), and Royal Military Academy, Woolwich, and as Assistant Inspector of Studies at the latter Institution, will be continued as at present on the strength of their Regiment or Corps, as Supernumeraries to the Establishment, and receive their pay and allowances under the Regulations specially applicable to Supernumerary Captains and Subalterns.

17. Captains of the Royal Artillery and Royal Engineers, if promoted to the rank of Regimental Field Officer during the term of their employment as Professors and Masters, will be required to relinquish their appointments and join their Brigades or Corps.

18. Although the Clauses from 12 to 17 have been framed with special reference to Officers of Artillery and Engineers, it is to be understood that the general provisions of these Regulations are also to be adopted in every way in which they can be made applicable to those two services.

FINANCIAL DEPARTMENT.—No. 2099A.—*Allahabad, the 27th November 1862.*—The following Extract from the Proceedings of the Government of India, containing a Resolution by the Governor General in Council regarding the Uncovenanted Service Pension Rules, is published for general information:—

No. 874G.—Read again the Uncovenanted Service Pension Rules, dated 4th January 1831.

RESOLUTION.—The Governor General in Council observes that, under the Uncovenanted Service Pension Rules of 1831, the Head of an Office, when applying for a pension for any of his Subordinates, was required to detail the name, age, &c., of the individual, and the various situations he had held, and the total period of his service, and that in a note to Clause 4 of Rule VIII. it was added—"If the Officer making the application shall be unable, from his personal or official knowledge, to supply the whole of the specific information above required, he shall call upon the individual in whose favor the application may be made to furnish a written statement (to be verified by his oath or solemn declaration, if required) on such of the points above noticed as may be necessary."

On receipt of such applications for pension in the Financial Department, it has been the practice, in accordance with the orders contained in the Hon'ble Court's Despatch, No. 4, dated 26th January 1848, to call on the Civil Pay-Master (formerly Civil Auditor) concerned for a report on the applicant's services.

When the Civil Pay-Master's books bear out the applicant's statement, pension is granted under the rules in proportion to the length of service. But if as often happens, the applicant claims to have rendered long service, than the Civil Pay-Master's books can prove, the practice has been to ask applicant (through his official superior) to explain the discrepancy. Applicant is often able to give a plausible and sufficiently satisfactory explanation of the discrepancy, and in such cases his explanation is accepted and pension granted. Or, frequently, applicant submits certificates signed by his official superiors to prove periods of service about which there is a

doubt, and these certificates, if they appear genuine, are accepted as proof of applicant's service at the period to which they refer. But it sometimes happens that the applicant merely re-iterates his former statement, or gives some unsatisfactory explanation of the discrepancy between the Civil Pay-Master's books and his statement. In such cases, it has been usual to call on the applicant to file an affidavit to the correctness of his statement, and this affidavit has been taken as proof of the correctness of his statement, under the spirit of the rule quoted above.

It is very reasonable, His Excellency in Council observes, that, when the Civil Pay-Master's Office records have been destroyed by fire (as in the Mutiny) the applicant's affidavit, failing other more reliable testimony, should be taken as proof of his statement. If the applicant's statement be correct, it should be susceptible of proof from extant and accessible records; but if such records do not affirm the statement, there is reasonable ground for presuming the statement to be untrue or incorrect. Moreover, there are certain kinds of service (temporary) which do not qualify for pension, so that a man's honest statement of service may be accepted as proof that he is qualified for pension, and yet, had all the facts been known, the service would have been seen to have been temporary and no qualification for pension.

His Excellency in Council therefore considers that the general application of the rule for calling for affidavits is open to abuse, and that the practice relative thereto needs to be revised. His Excellency in Council resolves accordingly that the practice in all such cases shall be as follows:—

An applicant shall be required to state clearly the situations he has filled and the periods during which he filled them.

The Civil Pay-Master shall be required to report whether his Office records bear out applicant's statements. If there be any discrepancy in the statement, the Civil Pay-Master shall detail the apparent causes of that discrepancy, for instance, that the post applicant states he filled during a certain period is shewn by the Civil Pay-Master's Registers to have been filled by another man.

If the Civil Pay-Master's records cannot afford the desired information, reference should be made to the records of the Head of the Office in which applicant states he served during the period in doubt. Or, the applicant shall be required to furnish certificates, such as those given by an Officer to a Subordinate on his leaving an Office, which certificates may, in default of other evidence, be accepted as proof of the service to which they refer, provided, of course, the certificates bear internal evidence of being genuine.

But if the records of the Office in which applicant states that he served during the period in doubt do not afford the desired information, or if the applicant cannot produce certificates, such as those given by an Officer to a Subordinate on his leaving the Office, every such case shall be decided on its own merits, those cases only being treated specially in which an affidavit would be required and accepted *quantum valeat*.

By Order of the Hon'ble the Lieutenant-Governor, North-Western Provinces,

GEORGE COOPER,

Secy. to Govt., N. W. P.

The following are the Conditions of Sale:—

1. The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2. The Opium will be ordinarily offered for sale at an upset price of Rupees 100 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of the Conditions of Sale.

3. The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M., but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on, until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five Chests.

5. A Promissory Note, for a sum calculated

When the amount bid is less than Rs. 1,200 per chest	Deposit	according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the sale, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other Public Securities as aforesaid shall have been delivered in shall be re-sold at such time or times and under such conditions of re-sale
On bids of Rs. 1,200 but less than " 1,600	Rs. 200 per Chest.	
On bids of " 1,600 but less than " 2,000	" 300 "

fore the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the sale, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other Public Securities as aforesaid shall have been delivered in shall be re-sold at such time or times and under such conditions of re-sale

as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes, taken on the day of Sale under the last mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for re-liquidation on such manner as to him shall seem fit.

7. No tender of Money, Bank of Bengal Receipts, or Public Securities on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8. The Opium now advertised for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the Sale Book, or his authorized Agent. The receipt for deposit of Public Securities will be granted only in the name of such purchaser, and the Securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The Officer Superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the Sale, it is hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot, after it has been offered for sale in the mode here

described, shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for sale.

No. 2.—Report of the examination of such Opium.

16. The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1861-62, the same precautions have been taken as those which have been observed during past years, to have the drug procured and set down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the chests indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen, on application, at the Office of the Junior Secretary to the Board of Revenue, four chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the provision's season will be also shown to the purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the chests offered for sale.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815,

quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1863, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular sale within thirty days from the advertisement of such intended sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisitions for Opium within the time abovementioned,

	Chests.	
Behar	22,313	39,617 Chests of Behar and
Benares	17,304	Benares as above estimated
	39,617	will be brought to sale in the

usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to—

Article 6th.—“With regard to the trade in Opium, it is agreed between the High Contracting Parties that at each of the periodical Sales of that article, there shall be reserved for the French Government and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that, if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore-mentioned. The requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the *Government Gazette*.”

Offg. Junior Secretary.
